AIFMD

CRD IV

FATCA

The Capital Requirements Regulation and the Capital Requirement Directive (CRD IV) have brought in a harmonized reporting framework called COREP and FinREP for banks and investment firms throughout the European Union. In order to comply with the regulation, firms must overcome many challenges including consolidation of data across disparate sources, but more importantly XBRL conversion of the data. The CRD IV Solution from DataTracks assists to consolidate your data, validate them against EBA rules and convert your file for regulatory filing.

FEATURES

- » Easy to use interface
- » Flexible data consolidation – upload data from files or automate data capture from relevant data warehouse or financial systems
- » Collaborative workflow connects users across departments such as risk, asset, finance and management
- » Audit trail with high granularity
- » Solution can be hosted on our Europe based cloud infrastructure or alternatively installed in client environment
- » Revisions to taxonomy updated centrally saving time
