Multiple Regulations One-stop Solution

for banks, insurance companies and investment firms

CRD IV

FATCA

MiFID II

FATCA\CRS regime was brought into force to detect and bring into record, undisclosed assets held by citizens in foreign country by imposing reporting obligations on the Financial Institutions (FFIs) of each participating Country. The regime imposes challenges such as identifying the reportable accounts and complying with relevant reporting schema. With DataTracks' one-stop solution for all FATCA\CRS regimes, compliance has become easier and simpler by connecting with filer's internal systems, identifying reportable accounts and generating the regulatory report.

FEATURES

- » Easy to use interface
- » Single solution supports generating reports to comply with both US FATCA and the CRS Regulation.
- » Flexible data consolidations – upload data from files or automate data capture from relevant data warehouse or financial systems.
