SOLVENCY II

Compliance Reporting Simplified

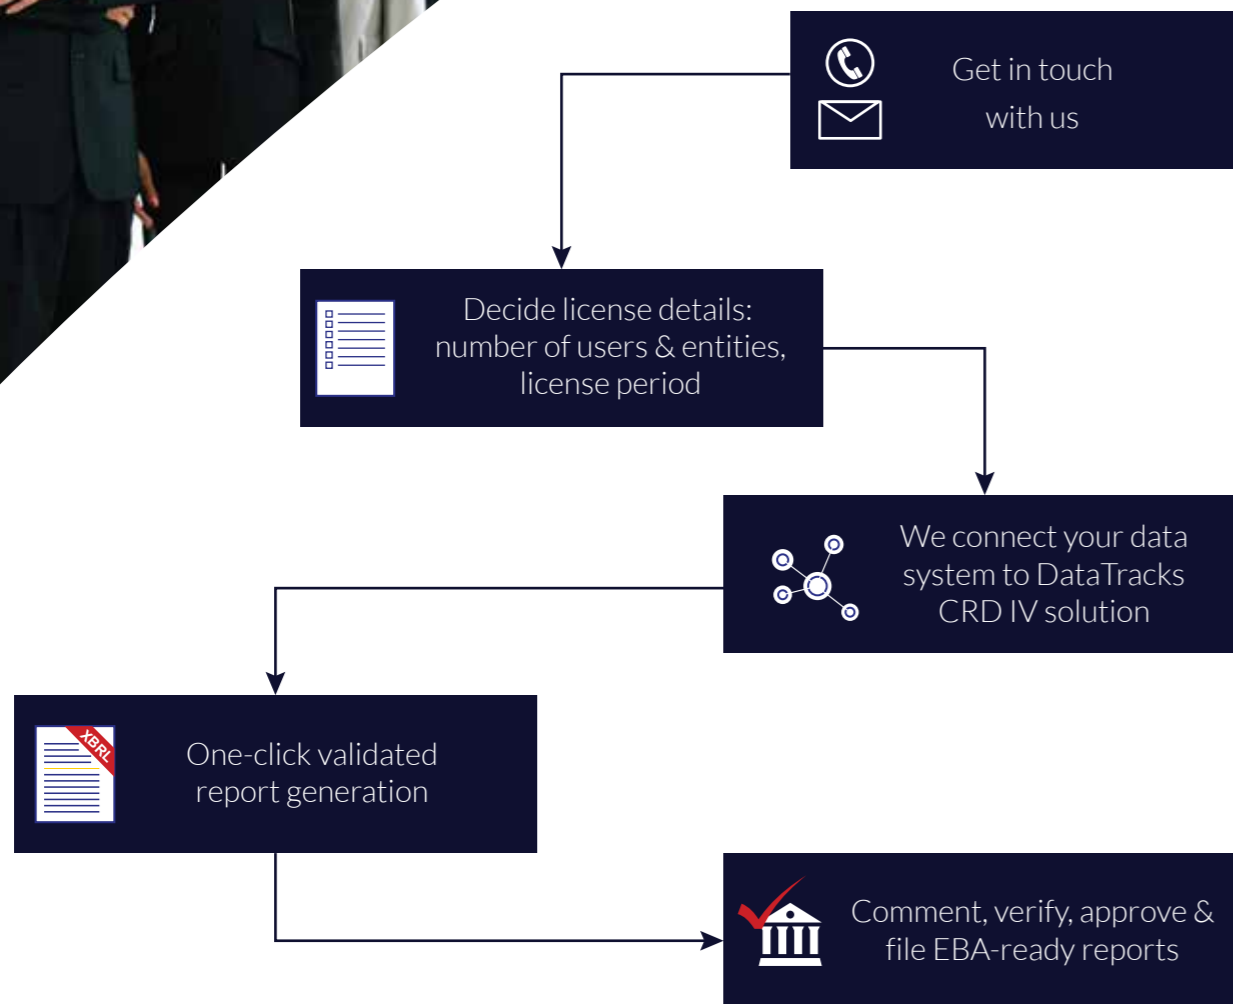

DataTracks Solvency II Reporting Software

DataTracks Solvency II provides an in-house solution and a SaaS based model for firms to generate XBRL reports for filing with their respective National Supervisory Authorities. The software is robust and easy-to-use, providing EIOPA mandate validations and rendering high quality reports, making it an ideal solution for Pillar 3 reporting. Hosted on a private cloud, it gives you complete control over your secure data.

Generate Reports with Ease

Our software's auto link DPM interface integrates seamlessly with your technical ecosystem and generates error-free reports at the touch of a button. Support for initial one-time setup for mapping and implementation reduces manual effort and ensures accuracy

How it works

Benefits

Data security-

Our software will be setup within the firewalls of the enterprise to ensure data security

Data integrity-

Our software is developed on Data Point Model technology to ensure data integrity

Instantly generated reports-

Create reports at the click of a button using our auto link solution. Amend reports by simply pushing new source data. Save time, every time

Inbuilt validation-

Our inbuilt validation module conforms to the EIOPA business rules

Comment, compare versions and audit trail-

Control features provide you better data handling capability for accurate reporting enabling superior workflow management

Data drill down for effortless review-

Navigate seamlessly across screens and drill down into every entity item as per your needs, for faster review

User-friendly interface-

Our software's spreadsheet-like interface is designed for easy navigation and control for quick execution

No XBRL expertise needed-

You don't have to be an expert in XBRL. Our automated conversion process limits manual intervention saving your time and effort

Unparalleled Customer Support-

You are never far from our team of 400+ XBRL experts who are dedicated to helping you throughout your filing process

Latest taxonomy upgrades-

We help you stay relevant by providing regular upgrades of the latest taxonomy directives

Proven track record-

DataTracks' technology is trusted by over 23,400+ clients worldwide, helping them with their compliance reports.
